

DISCOVERYS MALICIOUS VENDETTA

Consequent upon our exposure of Discovery's decades of institutionalised defrauding and deception of its members, Discovery's Jeffrey Katz who personally derived enormous financial benefit by virtue of his, and under his instructions his departmental staffs bullying and harassment of seriously injured road accident victims, commences a malicious vendetta involving fraud, bribery and corruption, as revenge and in respect of which Katz threatens that "no matter what it takes, no matter what it costs, we will destroy you all".

"No matter what it takes, no matter what it costs, we (Discovery) will destroy you all".

Discovery's in house debt collector and instigator Jeff Katz

This site contains factual and substantiated proof how Discovery Health administrators (PTY) Limited (a wholly owned subsidiary of the public company Discovery Limited), via its in house debt collector Jeffrey Katz has waged a seven-year long vendetta against Ronald and Darren Bobroff, and the Practice of RBP Inc., as revenge against them, because in the course of their defending Practice clients Mark and Jody Bellon, they unwittingly exposed Discovery's decades of institutionalised defrauding and abuse of its members who sustained injuries on road accidents or other trauma related events.

You will read how Katz made specific threats on a number of occasions to RBP director Stephen Bezuidenhout, to RBP's senior advocate Nazeer Cassim S.C during the hearing of a matter, which Discovery's attorney George van Niekerk of Edward Nathan Cape Town stated that it did not involve Discovery directly or indirectly, (so why was Discovery's Katz there and also present at every matter involving RBP former client Mr Graham and his wife, and all matters against RBP where Katz's proxy Anthony Millar attacked RBP's law society compliant contingency fee agreements?) Katz repeated the same threat he had made to Bezuidenhout and Advocate Cassim i.e. that "We (Discovery) will destroy you all, no matter what it takes and no matter what it costs", to Ronald and Darren Bobroff on a number of occasions.

You will also read how Discovery, via its attorneys Edward Nathan effectively hijacked the Law Society Council, by packing it with Discovery attorneys and others closely connected to Discovery or ENS, and how it catapulted a shady ambulance chaser, Anthony Millar of Norman Berger and Partners, whose practice comprises largely of poor black road accident victims who are touted from Natalspruit Hospital; to the office of "president" of the Law Society of the Northern Provinces.

YouTube interviews with a few of Millar's touted clients: (affidavits have been taken from dozens of his clients by independent professional

investigators and every client describes how he or she was touted in much the same way by Millar's tout Jabu ,as is described in the YouTube interviews below.

Unsurprisingly the Law Society has simply ignored dozens of complaints in this regard against Norman Berger and Anthony Millar, or simply swept the complaints under the carpet at secret meetings behind closed doors from which the Attorney and Advocate representing Berger and Millar's touted victims were excluded.

To further compound its improper conduct the Law Society flatly refused to provide Millar's victims or their attorney with a copy of the recording, made at the secret meeting or the reasons why these serious touting complaints, of which normally only one proven touting of a client is sufficient to be struck off the roll; were simply ignored.

Millar has never previously served on any committee of the organized profession, and his rigged installation as "president' of the Law Society by Discovery / ENS, is a perversion of the integrity that the Law Society has always stood for, and irreparably taints it.

Read the powerful and truthful affidavits filed by the Law Society's former president, Mr Busani Mabunda in 2012 and 2013, in which he fearlessly exposes Discovery and its attorney George Van Niekerk of ENS, as being behind the cynical use of a former RBP client to pursue its vendetta against Ronald, Darren and RBP. He accuses van Niekerk and RBP former client Mr Graham and his wife of perjury, and in addition van Niekerk of appalling unprofessional conduct.

Below you will read how 2014/5 Law Society President Strike Madiba, again expressly fingers Discovery on 30 July 2015, in an affidavit filed by him in court, of being behind the second round of litigation brought by it in the name of the same former RBP client previously used as a puppet against RBP Inc., Ronald and Darren, after its earlier application was effectively dismissed by the court.
